In case of any major treatment or treatment on hill-climbs, the Race Doctors shall stop to administer the treatment.

Moreover, a medical team together with an ambulance equipped with a mobile X-ray unit will be available at the team bus parking lot at the end of each stage.

Riders will be provided with a transponder for automatic time reading, to be mounted on a mandatory basis on the frame of the bicycle.

Article 13 – Finishing time limit

In order to determine the finish time limit allowed, the stages have been divided into four categories according to the different nature of the route, i.e.:

- a category: stages presenting no particular difficulty
- b category: stages presenting average difficulty
- c category: stages presenting remarkable difficulty
- d category: individual and team time trial stages

Consequently, the time limit has been set out as follows:

- **for the a) category**, the winner's time plus:
 - 7% if the average speed is less than or equal to 42 Km/h
 - 8% if the average speed is between 42 and 45 Km/h
 - 10% if the average speed is over 45 Km/h
- **for the b) category**, the winner's time plus:
 - 9% if the average speed is less than or equal to 37 Km/h
 - 10% of the average speed is between 37 and 42 Km/h
 - 11% if the average speed is over 42 Km/h
- **for the c) category**, the winner's time plus:
 - 10% if the average speed is less than or equal to 34 km/h
 - 11% if the average speed is between 34 and 37 km/h
 - 12% if the average speed is over 37 km/h
- **for the d) category**, the winner's time plus 25%.

According to Article 2.6.032 of the UCI Regulations, under special weather conditions, or other exceptional circumstances, confirmed accidents or incidents, the Commissaires Panel, after consultation with the Organization Director, may readmit in the race any Rider finishing in a time exceeding the time limit, by increasing the latter by a maximum of 25% of the time set forth in this Article.

The time limit, established based on the winner's time expressed in minute seconds, shall be further rounded off to the subsequent minute.

For the purpose of enforcing the provisions of this Article, the stages of the 52nd Tirreno – Adriatico have been classified as follows:

- a category: Stages 3, 6
- b category: Stages 2, 5
- c category: Stage 4
- d category: Stages 1, 7

Article 14 – Time trial stages

A) General provisions

Riders can use bicycles falling within the scope of parameters and measurements set forth by the U.C.I. Regulations, and that shall be verified according to the provisions set forth by the Commissaires Panel.

At the start, riders shall be supported by judges in charge appointed by the Commissaires Panel.

Each rider will be followed by a car – two cars in the team time trial stage – carrying technical staff and spare parts, and an extra Commissaire, if need be. The vehicle shall follow the rider at not less than 10 meters and shall in no way draw up level with the rider.

Whenever a rider is reached by another competitor, the same shall move to the right side of the road and remain there until the other Rider is at least 25 meters ahead of him.

B) Team time trial stage

Lido di Camaiore

The starting order of the team time trial stage shall be determined by a drawing due to take place on Tuesday, March 7, during the technical meeting.

Should the field of competitors include the winner of the last edition, then his team will start at the last place.

Starts will occur in identical five-minute intervals.

Team timing will be calculated on the fifth rider arrived; the other riders of the team will be granted the recorded time upon their passing the finishing line.

In the event of an accident during the last kilometer, the provisions of article 2.6.028 of the U.C.I. Regulations shall apply.

C) Individual time trial stage

San Benedetto del Tronto

The starting order of the individual time trial stage shall be determined by the rider's position on the general classification at the end of the previous stage, so that the last-placed in the ranking will start first, the second last-placed as second and so on until the first best-placed who will be the last rider to start.

In the event two or more riders of the same team would fall into a consecutive starting order, then the Commissaires Panel could be in a position to change the order, thus inserting riders of other teams that immediately precede or follow them in the general classification.

Riders shall set off at identical intervals between 1' to 3'.

The Race Director, by common consent with the President of the Commissaires Panel and having informed the LCP-UCI technical delegates, is authorized to increase the starting interval for the last 15 starting riders.

Article 15 – General individual classification by time

The leader of the general individual ranking will wear the blue jersey.

In compliance with the provisions set forth by Articles 2.6.014 and 2.6.015 of the UCI Regulations, the general individual ranking is established by adding together the times achieved by each competitor in each stage. Time allowances and penalties are considered for this classification.
